Press Release
FOR IMMEDIATE RELEASE

Centre for Neuro Skills® Partners with Humana

Irving, TX (September 23, 2008) - Centre for Neuro Skills® (CNS) today announced its partnership with Humana–ChoiceCare, one of the nation’s largest publicly traded health benefits company. This contract provides Humana’s national network of members access to CNS, the nation’s leading Center of Excellence for medical treatment, disease management, and rehabilitation for those living with traumatic or acquired brain injury (TBI/ABI).

Headquartered in Louisville, KY, Humana has grown to serve approximately 11.5 million members nationwide. Humana’s regional and national networks include more than 450,000 physicians, hospitals, pharmacies, and ancillary care providers in almost every state, making the company one of the nation’s largest provider networks.

Humana and CNS share the same interest in working to transform the health care industry for employers, employees, and individuals, by providing the best quality care possible. This partnership reflects this common goal as Humana’s members are now offered the most advanced, individualized, and outcome-driven brain injury rehabilitation programs at CNS’s Irving, TX facility.

“CNS’s position has always been that employers and insurers can benefit from an aggressive approach to claims and medical management of catastrophic brain injuries,” said Dr. Mark Ashley, President and CEO of Centre for Neuro Skills®. “This partnership allows us to continue to demonstrate this with Humana’s membership in Texas.”

Over its 47-year history, Humana has consistently seized opportunities to meet changing customer needs. Today, the company is a leader in consumer engagement, providing guidance that leads to lower costs and a better health plan experience throughout its diversified customer portfolio. For more information regarding Humana, please visit www.humana.com.

Founded in 1980, Centre for Neuro Skills® (CNS) is an experienced and trusted source of rehabilitation programs for acquired brain injury (ABI). With facilities in Bakersfield and Los Angeles, California, and Dallas, Texas, CNS offers intensive, cost-effective, and outcome-driven residential, outpatient, and in-home rehabilitation programs for individuals recovering from all types of ABI. The purpose of all rehabilitation programs at CNS is to reduce disabilities while obtaining the maximum independence and best quality of life in the least restrictive setting for our clients within the possibilities of funding support available.
