

Gary Seale **PhD, LPA, LCDC**

Regional Director of Clinical Services
Centre for Neuro Skills
Houston, Texas

*Researcher and psychologist specializing in
brain injury, stroke, and substance misuse.*

EXPERT BIO

- Dr. Seale received his PhD in Rehabilitation Science from University of Texas Medical Branch (UTMB) in Galveston, TX. He is a licensed chemical dependency counselor and psychologist with an independent practice. He holds a clinical appointment at UTMB in the School of Health Professions – Department of Rehabilitation Science.
- He has conducted research and published peer-reviewed articles on rehabilitation outcomes, substance misuse, and emotional recovery following a stroke.
- In helping patients and families deal with traumatic brain injury and stroke, Dr. Seale encourages reframing the circumstance, building emotional resilience, and redefining life's real meaning.
- Dr. Seale also teaches courses for professionals working in rehabilitation. He addresses the persistence of patient deficits such as decreased memory, impaired attention/concentration, impaired vision, and ongoing challenges with problem solving, processing speed, and cognition.

CV available upon request.

SUMMARY

In his 30 years as clinician, lecturer, and researcher, Dr. Seale's expertise spans brain injury rehabilitation, stroke research, and documenting the power of positive emotion following neurological injury.
