Centre for Neuro Skills California Locations Join UnitedHealthcare Network

Bakersfield, CA (March 2, 2017) - Centre for Neuro Skills (CNS) today announced that its California clinical locations have been successfully credentialed into the UnitedHealthcare network. Members will now have improved access to CNS' world-class medical treatment, disease management, and rehabilitation for traumatic brain injury.

Effective on April 1, 2017, the contract covers inpatient and outpatient treatment in CNS' Bakersfield, Los Angeles, and San Francisco locations.

"This contract improves access to treatment for thousands of people seeking brain injury rehabilitation services," said Ken Diashyn, Vice President of Business Development for CNS. "It empowers both UnitedHealthcare and CNS to promote health and enhance the quality of life for those who've suffered a catastrophic brain injury."

The agreement provides for a broad spectrum of services to people in need of neurological rehabilitation, according to Chris Woods, CNS Senior Admissions Coordinator and Regional Contracts Manager. "Our success with UnitedHealthcare in our Texas location helped CNS to extend patient care to California," he noted.

CNS has had a contract with UnitedHealthcare in Texas since 1994, which covers patients in the Dallas location and will extend to the new Fort Worth clinic, set to open this year.

UnitedHealthcare is an operating division of UnitedHealth Group, the largest single health carrier in the United States.

About Centre for Neuro Skills

CNS is recognized as an experienced and respected world leader in providing intensive rehabilitation and medical programs for individuals recovering from all types of brain injury. CNS effectively covers a full spectrum of care from inpatient and assisted living to outpatient/day treatment.
