

David Harrington

MBA, OTR/L, CBIST

President and Chief Executive Officer
Centre for Neuro Skills

*Expert in traumatic brain Injury, stroke,
brain injury rehabilitation and COVID-19
impact on neurological injuries.*

EXPERT BIO

- David has worked in the field of brain injury rehabilitation since 1993. As a clinician, executive, therapist and case manager, his knowledge spans the core disciplines of brain injury rehabilitation. He is a Certified Brain Injury Specialist and Trainer (CBIST) and holds an MBA from California State University, Bakersfield, giving him clinical, business, and leadership expertise in this specialized area of health care.
- David was a founder of the Kern County Concussion Consortium, an association of civic leaders, educators, and clinicians to advance concussion education and prevention in Central California.
- As an adjunct professor of business at California State University Bakersfield, he teaches operations management, business ethics, and business data analysis. His work in synthesizing patient data is utilized to refine best practices in patient care for brain injury survivors.
- David is also an advocate for patients, families, and rehabilitation. He serves as a Director on the Board of the Brain Injury Association of America, providing expertise on treatment, legislation, and appropriate clinical care.

CV available upon request.

SUMMARY

David has extensive knowledge of brain injury, concussion, stroke, and the risks posed by COVID-19 on those with neurological disorders. A seasoned business professor, he is renowned for his media skills and engagement with clients.
